**INDEX FOR VOLUME 71, 2014**

APPHAX 71, 1-1118 (2014)

## EDITOR

Aleksander P. Mazurek

National Medicines Institute, The Medical University of Warsaw

## ASSISTANT EDITOR

Jacek Bojarski

Medical College, Jagiellonian University, Cracow

## EXECUTIVE EDITORIAL BOARD

Mirosława Furmanowa	The Medical University of Warsaw
Bożenna Gutkowska	The Medical University of Warsaw
Roman Kaliszan	The Medical University of Gdańsk
Jan Pachecka	The Medical University of Warsaw
Jan Pawlaczyk	K. Marcinkowski University of Medical Sciences, Poznań
Janusz Pluta	The Medical University of Wrocław
Witold Wieniawski	Polish Pharmaceutical Society, Warsaw
Pavel Komarek	Czech Pharmaceutical Society
Henry Ostrowski-Meissner	Charles Sturt University, Sydney
Erhard Röder	Pharmazeutisches Institut der Universität, Bonn
Phil Skolnick	DOV Pharmaceutical, Inc.
Zoltán Vincze	Semmelweis University of Medicine, Budapest

### Charges

Annual subscription rate for 2015 is US \$ 210 including postage and handling charges. Prices subject to change.  
Back issues of previously published volumes are available directly from Polish Pharmaceutical Society, 16 Długa St., 00-238 Warsaw, Poland.  
Payment should be made either by banker's draft (money order) issued to „PTFarm” or to our account Millennium BIG Bank Gdański S.A. No. 29 1160 2202 0000 0000 2770 0281, Polskie Towarzystwo Farmaceutyczne, ul. Długa 16, 00-238 Warszawa, Poland, with the memo Acta Poloniae Pharmaceutica - Drug Research.

### Warunki prenumeraty

Czasopismo Acta Poloniae Pharmaceutica - Drug Research wydaje i kolportaż prowadzi Polskie Towarzystwo Farmaceutyczne, ul. Długa 16, 00-238 Warszawa.  
Cena prenumeraty krajowej za rocznik 2015 wynosi 198 zł. Prenumeratę należy wpłacać w dowolnym banku lub Urzędzie Pocztowym na rachunek bankowy Wydawcy:

# INDEX FOR VOLUME 71, 2014

## REVIEW

- A review on adiabatic activity of *Citrullus colocynthis* Schrad. No. 3, p. 363
- AMD – the retinal disease with an unprecised etiopathogenesis:  
In search of effective therapeutics. No. 6, p. 900
- Application of CPC and related methods for the isolation of natural  
substances – a review. No. 2, p. 223
- Functions and applications of exosomes. No. 4, p. 537
- G protein-coupled receptors: abnormalities in signal transmission, disease  
states and pharmacotherapy. No. 2, p. 229
- Gist of medicinal plants of Pakistan having ethnobotanical evidences  
to crush renal calculi (kidney stones). No. 1, p. 3
- Lysophosphatidylcholine and lysophosphatidylinositol – novel promising  
signaling molecules and their possible therapeutic activity. No. 6, p. 887
- Modern industrial and pharmacological applications of indigo dye and its  
derivatives – a review. No. 2, p. 215
- Mycophenolate mofetil – a new atheropreventive drug? No. 3, p. 353
- New trends in the treatment of nicotine addiction. No. 4, p. 525
- Paracetamol: mechanism of action, applications and safety concern. No. 1, p. 11
- Plant stem cells as innovation in cosmetics. No. 5, p. 701
- Recent pharmacological advancements in Schiff bases: a review. No. 4, p. 531
- The role of zinc in the pathogenesis and treatment of central nervous system  
diseases. Implications of zinc homeostasis for proper CNS function. No. 3, p. 369

## ANALYSIS

- Amphetamines in wastewater of the city Poznań (Poland) - estimation of drug  
abuse. No. 1, p. 25
- Analysis of compounds with phytoestrogenic activity in dietary supplements  
with use of HPTLC-densitometry method. No. 2, p. 265
- Comparison of ultraviolet detection and charged aerosol detection methods  
for liquid chromatographic determination of protoescigenin. No. 6, p. 933
- Determination of organic volatile impurities in nepafenac by GC method. No. 6, p. 1013
- Development and validation of stability-indicating HPLC method for  
determination of cefpirome sulfate. No. 5, p. 731
- Development and validation of stability-indicating HPLC method for  
simultaneous determination of meropenem and clavulate potassium. No. 2, p. 255
- Development studies on determination of preservatives decomposition products. No. 4, p. 563
- EPR studies of free radicals in A2058 human melanoma cells treated by  
valproic acid and 5,7-dimethoxycoumarin. No. 6, p. 1066
- Fast determination of diphenhydramine hydrochloride in reconstitutable syrups  
by CWT, PLS and PCR methods. No. 5, p. 721
- HPLC method for identification and quantification of three active substances  
in a dermatological preparation – Viosept ointment. No. 5, p. 709

Identification of similarities in metallic content of herbal infusions using non-linear approach.	No. 4, p. 575
Levels of some microelements and essential heavy metals in herbal teas in Serbia.	No. 3, p. 385
New renin inhibitors – stability and activity determination. Part I.	No. 4, p. 545
New renin inhibitors – stability and activity determination. Part II.	No. 4, p. 555
Preparation and radiochemical control of <sup>99m</sup> Tc labeled blood pool agent for <i>in vivo</i> labelling of the red blood cells.	No. 2, p. 243
Rapid and sensitive bioanalytical-stability indicating method for quantification of Talinolol, a selective $\beta_1$ adrenoceptor antagonist in lipid based formulations using ultrafast UHPLC systems.	No. 5, p. 737
Reversed-phase TLC study of some long chain arylpiperazine of imidazolidine-2,4-dione and imidazo[2,1-f]purine-2,4-dione derivatives.	No. 3, p. 379
Sensitive single quadrupole LC/MS method for determination of lapatinib in human plasma.	No. 6, p. 1029
Stability indicating HPLC-UV method for determination of dapoxetine HCl in pharmaceutical product.	No. 3, p. 393
Stability of new anticonvulsant derivatives of picolinic, nicotinic, cyclocarboxylic acids in body fluids and tissues.	No. 2, p. 261
Stability-indicating HPLC method for the determination of cefquinome sulfate.	No. 2, p. 249
TLC-densitometric method for qualitative analysis of betamethasone and its related compounds in pharmaceutical preparations.	No. 6, p. 922

## DRUG BIOCHEMISTRY

Absorption and metabolism of biologically active genistein derivatives in colon cancer carcinoma cell line (Caco-2).	No. 6, p. 1037
Antimicrobial peptides as potential tool to fight bacterial biofilm.	No. 1, p. 39
Antiproliferative effect of valproic acid and 5,7-dimethoxycoumarin against human melanoma cells.	No. 6, p. 1058
3,5-Dimethoxy-(4-methoxyphenyl)benzamide suppresses adipogenesis in 3T3-L1 cells.	No. 1, p. 35
Effect of Gly-His-Lys and its copper complex on TGF- $\beta_1$ secretion in normal human dermal fibroblasts.	No. 6, p. 954
Effect of valproic acid on the proliferation and apoptosis of the human melanoma G-361 cell line.	No. 6, p. 917
Effects of vanadium complexes supplementation on V, Cu, Mn, K, Fe, Zn, and Ca concentration in STZ diabetic rats pancreas.	No. 4, p. 583
Enrichment of maternal diet with conjugated linoleic acids influences desaturases activity and fatty acids profile in livers and hepatic microsomes of the offspring with dimethylbenz[a]anthracene induces mammary tumors.	No. 5, p. 747
Evaluation of genistein ability to modulate CTGF mRNA/protein expression, genes expression of TGF $\beta$ isoforms and expression of selected genes regulating cell cycle in keloid fibroblasts <i>in vitro</i> .	No. 6, p. 972
<i>In vitro</i> evaluation of antiproliferative and cytotoxic properties of pterostilbene against human colon cancer cells.	No. 6, p. 1051
Influence of cyclosporin A on expression pattern of genes associated with DNA repair in human dermal fibroblasts.	No. 6, p. 966

Influence of inositol hexaphosphate on the expression of selected proliferation markers in IL-1 $\beta$ -stimulated intestinal epithelial cells.	No. 6, p. 987
Interaction of new piroxicam analogues with lipid bilayers – a calorimetric and fluorescence spectroscopic study	No. 6, p. 1004
<b>Investigation of the influence of vanadium compounds treatment in NZO mice model – preliminary study.</b>	<b>No. 2, p. 271</b>
Polyunsaturated fatty acids potentiate cytotoxicity of cisplatin in A549 cells.	No. 6, p. 1060
Preliminary studies on application of library of artificial receptors for differentiation of metabolites in urine of healthy and cancer bearing mice.	No. 6, p. 941

## DRUG SYNTHESIS

Design and synthesis of novel thiophenes bearing biologically active aniline, aminopyridine, benzylamine, nicotinamide, pyrimidine and thiazolopyrimidine moieties searching for cytotoxic agents.	No. 3, p. 401
New lead structures in the isoxazole system: relationship between quantum chemical parameters and immunological activity.	No. 1, p. 71
New renin inhibitors containing phenylalanylhistidyl- $\gamma$ -amino acid derivatives in P <sub>3</sub> – P <sub>1</sub> ' position.	No. 1, p. 59
Synthesis and antimicrobial activity of new norbornyl system based oxadiazole thioglycosides and acyclic nucleoside analogs.	No. 5, p. 771
Synthesis and anti-mycobacterial activity of new 4-thiazolidinone and 1,2,3-oxadiazole derivatives of isoniazid.	No. 5, p. 763
Synthesis and molecular docking of some novel anticancer sulfonamides carrying biologically active pyrrole and pyrrolopyrimidine moieties.	No. 4, p. 603
Synthesis of chiral triazine coupling reagents based on esters of <i>N</i> -alkylproline and their application in the enantioselective incorporation of D or L amino acid residue directly from racemic substrate.	No. 6, p. 994
Synthesis of protoescigenin glycoconjugates with O-28 triazole linker.	No. 6, p. 959
Synthesis of new piroxicam derivatives and their influence on lipid bilayers.	No. 6, p. 1045
Synthesis of some new carbonitriles and pyrazole coumarin derivatives with potent antitumor and antimicrobial activities.	No. 4, p. 593
Synthesis, pro-apoptotic activity and 2D-QSAR studies of new analogues of fluphenazine.	No. 1, p. 49
Utility of L-norephedrine in the semisynthesis of novel thiourea and thiazolidine derivatives as a new class of anticancer agents.	No. 4, p. 615

## NATURAL DRUGS

Antifungal and cytotoxic activities of <i>Nannorrhops ritchiana</i> roots extract.	No. 5, p. 789
Antimicrobial activity of fruits of <i>Solanum nigrum</i> and <i>Solanum xanthocarpum</i> .	No. 3, p. 415
Antimicrobial activity of preparation Bioaron C <sup>®</sup> .	No. 5, p. 795
Antioxidant and anxiolytic activities of <i>Crataegus nigra</i> Wald. et Kit. berries.	No. 2, p. 279
Antioxidant and hypoglycemic effect of <i>Otostegia aucheri</i> methanolic extract in streptozotocin-induced diabetic male Long-Evans rats.	No. 4, p. 631
Herbal preparation extract for skin after radiotherapy treatment. Part I. Preclinical tests.	No. 5, p. 781

New withanolide, acyl and menthyl glucosides from fruits of <i>Withania coagulans</i> Dunal.	No. 3, p. 423
Phospholipases A <sub>2</sub> : enzymatic assay for snake venom ( <i>Naja naja karachiensis</i> ) with their neutralization by medicinal plants of Pakistan.	No. 4, p. 625
Phytate, inorganic and total phosphorus and their relations to selected trace and major elements in herbal teas.	No. 1, p. 85
Water soluble compounds and lettuce inhibit DNA damage and lipid peroxidation induced by glucose/serum deprivation in N2a cells.	No. 3, p. 409

## PHARMACEUTICAL TECHNOLOGY

Biopharmaceutical evaluation of new slower release tablets obtained by hot tableting of coated pellets with tramadol hydrochloride.	No. 5, p. 813
Bioresorbable copolymer of L-lactide and ε-caprolactone for controlled paclitaxel delivery.	No. 6, p. 1023
Characterization of gliclazide release from isabgol husk hydrogel beads by validated HPLC method.	No. 1, p. 153
Evaluation of coprocessed disintegrants produced from tapioca starch and mannitol in orally disintegrating paracetamol tablet.	No. 5, p. 803
Evaluation of diclofenac sodium sustained release matrix pellets: Impact of polyethylene glycols molecular weight.	No. 5, p. 821
Identification of phases of various oil, surfactant/cosurfactants and water system by ternary phase diagram.	No. 2, p. 301
Improved physicochemical characteristics of artemisinin using succinic acid.	No. 3, p. 451
Influence of spray drying manufacturing parameters on quality of losartan potassium microspheres.	No. 5, p. 833
<b><i>In vitro</i> evaluation of transdermal patches of flurbiprofen with ethyl cellulose.</b>	<b>No. 2, p. 287</b>
<i>In vitro</i> – <i>in vivo</i> evaluation of a new oral dosage form of tramadol hydrochloride – controlled release capsules filled with coated pellets.	No. 3, p. 469
Interaction analysis of aspirin with selective amino acids.	No. 1, p. 139
Material and tableting properties of <i>Azadirachta indica</i> gum with reference to official acacia gum.	No. 1, p. 107
Nanoprecipitation with sonication for enhancement of oral bioavailability of furosemide.	No. 1, p. 129
Optimization and evaluation of clarithromycin floating tablets using experimental mixture design.	No. 2, p. 311
Permeation study through bacterial cellulose membrane.	No. 2, p. 297
Stability evaluation of thermosensitive drug carrier systems based on Pluronic® F-127 polymer.	No. 1, p. 167
Stability of cilazapril in pediatric oral suspensions prepared from commercially available tablet dosage forms.	No. 4, p. 661
Stability of [(N-piperidine)methylene]daunorubicin hydrochloride and [(N-pyrrolidine)methylene]daunorubicin hydrochloride in solid state.	No. 3, p. 431
Statistical optimization and <i>in-vitro</i> evaluation of hollow microcapsules of an anti-hypertensive agent.	No. 1, p. 95
Study of comparative bioavailability of omeprazole pellets.	No. 3, p. 463

Surface activity of novel surface active compounds, products of catalytic oxyethylation of cholic acid and their micellar adducts with selected lipophilic therapeutic agents.	No. 1, p. 119
Tenoxicam-Kollocoat® IR binary systems: physicochemical and biological evaluation.	No. 4, p. 647
The effect of excipients on the release kinetics of diclofenac sodium and papaverine hydrochloride from composed tablets.	No. 3, p. 439
The impact of liposomes on transdermal permeation of naproxen - <i>in vitro</i> studies.	No. 1, p. 145
Usefulness of Rosen's postulate for studying the relationship between the structure of cholic acid oxyethylation products and the process of solubilization of lipophilic therapeutic agents (BCS class II and IV) in aqueous solutions in equilibrium.	No. 4, p. 637

## PHARMACOLOGY

Bioequivalence study of 400 and 100 mg imatinib film-coated tablets in healthy volunteers.	No. 5, p. 843
Cardioprotective effect of green tea extract on doxorubicin-induced cardiotoxicity in rats.	No. 5, p. 861
Comparative uric acid lowering studies of allopurinol with an indigenous medicinal plant in rabbits.	No. 5, p. 855
Effects of antidepressants and soybean association in depressive menopausal women.	No. 2, p. 323
Exercise prevented lansoprazole-induced reduction of anti-osteoporotic efficacy of alendronate in androgen deficiency rats.	No. 3, p. 485
Levofloxacin resistance of <i>Helicobacter pylori</i> strains isolated from patients in Southern Poland between 2006-2012.	No. 3, p. 477
Pharmacological evaluation of antihypertensive effect of aerial parts of <i>Thymus linearis</i> Benth.	No. 4, p. 677
Possible mechanism of cardiac depressant activity of <i>Berberis orthobotrys</i> roots in isolated rabbit heart.	No. 4, p. 667
Safety and efficacy of bone wax in patients on oral anticoagulant therapy.	No. 4, p. 683
The influence of piroxicam, a non-selective cyclooxygenase inhibitor, on autonomic nervous system activity in experimental cyclophosphamide-induced hemorrhagic cystitis and bladder outlet obstruction in rats.	No. 3, p. 497

## GENERAL

A questionnaire based survey study for the evaluation of knowledge of Pakistani university teachers regarding their awareness about ibuprofen as an over the counter analgesic.	No. 2, p. 337
Analysis of direct costs of hypertension treatment among adolescents in Poland.	No. 1, p. 197
Consumption of osteoanabolic drugs and strontium ralenate in the treatment of osteoporosis in the Czech Republic in 2005–2011.	No. 2, p. 329
Individual medication management system (IMMS) implementation in pharmacists' opinion.	No. 3, p. 509
Legal instruments supporting the development of orphan medicinal products in the European union.	No. 1, p. 181

Prescription of evidence-based medicine drugs by general practitioners to patients after myocardial infarction: outcomes from the Czech Republic.	No. 1, p. 189
Quantitative study evaluating perception of general public toward role of 4 pharmacist in health care system of Pakistan	No. 5, p. 869
Safety of oral ibuprofen – analysis of data from the spontaneous reporting system in Poland.	No. 4, p. 687

### SHORT COMMUNICATIONS

Application of new data processing method for the photodiode array detector in the drug substance analysis.	No. 6, p. 1079
Cyp2c9 gene polymorphism in the pharmacological treatment of long QT patients.	No. 6, p. 1103
Determination of the viscosity and density of veterinary vaccines.	No. 6, p. 1090
Development and validation of the GC method for the quantitative determination of semi-volatile solvents in the pharmaceutical substance – bosentan.	No. 6, p. 1107
Docking of thiopurine derivatives to human serum albumin and binding site analysis with Molegro Virtual Docker program	No. 2, p. 343
Fullerenes as the carriers of compounds with amide bond.	No. 6, p. 1073
Measurement of the radioactivity of <sup>137</sup> Cs in materials of plant origin with potential radioactive contamination.	No. 6, p. 1114
New abietatriene-type diterpenes linked with lanostenes from oleo-resin of <i>Pinus roxburghii</i> Sarg.	No. 1, p. 205
Penetration of sunitinib through the blood-brain barrier after the administration of ciprofloxacin.	No. 4, p. 691
Quantitative analysis of flavonoids and phenolic acids from inflorescences and aerial parts of selected <i>Cirsium</i> species using ASE method.	No. 5, p. 877
Preliminary studies evaluating cytotoxic effect of combined treatment with methotrexate and simvastatin on green monkey kidney cells.	No. 3, p. 515
Synthesis of fucosylated uridine conjugates as potential glycosyltransferase inhibitors.	No. 6, p. 1083
Transcriptional activity of genes encoding MMPs and TIMPs in breast cancer cells treated by genistein and in normal cancer-associated fibroblasts – <i>in vitro</i> studies.	No. 6, p. 1095
