

## CONTENTS

### REVIEW

1059. Syed Majid Bukhari, Iftikhar Ali, Asma Zaidi, Naseem Iqbal, Tayyaba Noor, Rashad Mehmood, Muhammad Salman Chishti, Basit Niaz, Umer Rashid, Muhammad Atif  
Pharmacology and synthesis of daurichromenic acid as a potent anti-HIV agent.
1073. Mingwei Mou, Chungun Li, Minghua Huang, Ziyi Zhao, Huadong Ling, Xiang Zhang, Fengxian Wang, Xincheng Yin, Yanxu Ma  
Antiosteoporotic effect of the rhizome of *Drynaria fortunei* (Kunze) (Polypodiaceae) with special emphasis on its modes of action.

### ANALYSIS

1081. Robert Piech, Beata Paczosa-Bator  
Application of glassy carbon electrode modified with nafion/MWCNTS for sensitive voltammetric determination of thymol.
1089. Kamil Kuś, Agnieszka Zakrzewska, Maria Walczak, Małgorzata Szafarz, Anna Gonciarz, Agnieszka Kij, Joanna Suraj, Joanna Szymura-Oleksiak  
Validation of LC/MS/MS method for assessment of the *in vitro* activity of the selected rat cytochrome P450 isoenzymes - application to early drug metabolism screening.
1101. Urszula Hubicka, Paweł Żmudzi, Barbara Żuromska-Witek, Paweł Zajdel, Jan Krzek  
Determination and characterization of selected fluoroquinolones oxidation products under potassium permanganate treatment.
1115. Wei Chen, Lin Li, Tuling Lu, Baochang Cai, Fangzhou Yin, Wu Yin  
Development of a quality control method for Schisandrae Chinensis Fructus with micellar electrokinetic capillary chromatography.
1125. Renata Paprocka, Bożena Modzelewska-Banachiewicz  
Determination of lipophilicity parameters of new derivatives of N<sup>3</sup> substituted amidrazones by reversed phase thin-layer chromatography.
1133. Paweł Olczyk, Katarzyna Komosińska-Vashev, Paweł Ramos, Łukasz Menener, Krystyna Olczyk, Barbara Pilawa  
Application of electron paramagnetic resonance spectroscopy for examination of free radical scavenging properties of insulin analogs.
1141. Małgorzata Dołowy, Alina Pyka  
The effect of β-cyclodextrin on the resolution of free and conjugated forms of deoxycholic and chenodeoxycholic acids by TLC-densitometry.

### DRUG BIOCHEMISTRY

1151. Anna Pudełko, Ewa Obuchowicz  
Desipramine, fluoxetine and tranylcypromine have different effects on apoptosis induced in rat cortical neurons by oxygen-glucose deprivation.
1163. Agnieszka Białek, Andrzej Tokarz, Paweł Zagrodzki  
Conjugated linoleic acids (CLA) decrease the breast cancer risk in DMBA-treated rats.
1177. Paweł Olczyk, Katarzyna Komosińska-Vashev, Paweł Ramos, Krystyna Olczyk, Barbara Pilawa  
Interactions of Insuman Comb 25 insulin with free radicals - kinetics examination by electron paramagnetic resonance spectroscopy.

### DRUG SYNTHESIS

1183. Saleh I. Alqasoumi, Mansour S. Alsaïd, Maged S. Abdel-Kader, Mostafa M. Ghorab  
Semisynthesis of novel sulfonamides, thioureas, and biphenylsulfones as a new class of anticancer agents by using L-norephedrine as strategic starting material.
1193. Korany A. Ali, Mohamed A. Elsayed, Salwa M. Elhallouty, Khaled Mahmoud, Ahmad M. Farag  
Synthesis and antitumor screening of some new 2,6-bispyridines functionalized with pyrazole-based heterocycles.

## NATURAL DRUGS

1201. Aminu Mohammed, Neil Anthony Koorbanally, Md. Shahidul Islam Phytochemistry, anti-oxidative and anti-diabetic effects of various parts of *Eugenia caryophyllata* Thunb. *in vitro*.
1217. Agnieszka Kicel, Monika Anna Olszewska, Aleksandra Owczarek, Maria Wolbiś Preliminary study on the composition of volatile fraction of fresh flowers and leaves of *Robinia pseudoacacia* L. growing in Poland.
1223. Youshan Li, Qi Zheng, Jianhui Qin Effect of TCM *Yinhuangsan* on rat's diabetic ulcer healing morphology and recovery factors.
1233. Imran Shair Mohammad, Haji Muhammad Shoaib Khan, Atif Iqbal Arshad, Hira Ijaz, Parikshit Banerjee, Asif Ullah Khan, Aftab-Ullah, Ajkia Zaman Juthi *In vitro* characterization and assessment of cosmetic potentials of W/O emulsion cream containing 2% *Prosopis cineraria* extract.
1239. Aleksandra Owczarek, Jan Gudej, Monika Anna Olszewska Antioxidant activity of *Geum rivale* L. and *Geum urbanum* L.

## PHARMACEUTICAL TECHNOLOGY

1245. Ramzi Shawahna, Mashhour Ghanem, Ayat Ghanem, Abdul-Fattah Mansour, Nema Ahmad, Abdel Naser Zaid Establishing similarity between multisource betahistine hydrochloride oral dosage forms using *in vitro* methods.
1253. Przemysław Zalewski, Daria Szymanowska-Powałowska, Piotr Garbacki, Magdalena Paczkowska, Alicja Talaczyńska, Judyta Cielecka-Piontek The radiolytic studies of ceftriaxone in the solid state.
1259. Valenty V. Mohylyuk, Lena L. Davtian Interaction of weak base drug trimetazidine and carbopol as further retardation in the matrix tablet.
1263. Przemysław Zalewski, Robert Skibiński, Alicja Talaczyńska, Magdalena Paczkowska, Piotr Garbacki, Judyta Cielecka-Piontek, Anna Jelińska Kinetics and mechanism of degradation of cefozopran hydrochloride in the solid state.

## PHARMACOLOGY

1269. Mohammad Ayaz, Fazal Subhan, Jawad Ahmed, Arif-ullah Khan, Farhat Ullah, Abdul Sadiq, Nawazish-i-Husain Syed, Ihsan Ullah, Sajid Hussain Citalopram and venlafaxine differentially augments antimicrobial properties of antibiotics.
1279. Ewelina Dziurkowska, Marek Wesołowski, Maciej Dziurkowski Changes of salivary cortisol level after venlafaxine treatment.

## GENERAL

1289. Márton Argay, Andrea Meskó, Romána Zekó, Balázs Hankó Therapy reminder message for Hungarian patients with type 2 diabetes.
1295. Daniela Minarikova, Adamos Panayotis Electronic prescription services system in Greece - pilot study.
1303. Mariola Drozd, Kazimierz Drozd, Monika Szkultecka-Dębek, Anna Kijewska, Nina Kiepuska Safety of OTC analgesic drugs in the opinion of Polish patients - preliminary study.

## SHORT COMMUNICATION

1315. Abdulmohsen H. Al Rohaimi Neuropharmacological and toxicity study of newly prepared N-[5-(3-chloro-4-fluorophenyl)-1,3,4-thiadiazol-2-yl]-2-substituted acetamides.
